INTRODUCTION

Our CEO and Chief Technology Officer David Crompton has invented and patented over 130 patents globally. With an 84% success rate in U.S. patents, Mr. Crompton has perfected the path toward successful intellectual property protection. Get unbiased reviews of your patent initiative or building on your intellectual property portfolio.

The success of your patent(s) can have a significant impact on the value of your business or current portfolio. You can trust us to review the competitive landscape, functional design, patent review, global searches, potential licensing, markets, manufacturing, tooling, and commercialization.

In addition to his prolific invention history, as an entrepreneur, as a C-suite executive, Mr. Crompton has built many companies and exited them as ongoing business enterprises. Our team has created countless professional presentations, videos, pitch decks and funding prospectuses that have generated tens of millions in funding.
